

Introducing MATx

Mobile App to Support Medication-Assisted Treatment of Opioid Use Disorder

MATx empowers health care practitioners to provide effective, evidence-based treatment for opioid use disorder.

MATx features include:

- A step-by-step guide for practitioners to become certified to prescribe buprenorphine
- Information on medications for opioid use disorder, including buprenorphine, methadone, naltrexone, and naloxone for opioid overdose prevention
- Clinical support tools, such as treatment guidelines, ICD-10 coding, and recommendations for working with special populations
- Access to critical helplines and SAMHSA's treatment locators.
